Aspire SERIES

ENERGY STAR® Certified
SINGLE-FAMILY HOMES by Urbandale

The Apex

44' COLLECTION

5 BEDROOMS | **3.5 BATHS** | **3,159 SQ. FT.**

More room for everyone. More ways to make it yours.

The Apex is ideal for larger families who want space without losing connection. Its main floor offers a kitchen, breakfast area and great room, plus separate living and dining rooms, a powder room and a versatile den. Upstairs, five bedrooms, three full bathrooms and bedroom-level laundry give everyone room and plenty of space.

ENERGY STAR® Certified Performance

Every Aspire single-family home is ENERGY STAR® Certified, meaning it has been independently tested to meet higher standards for efficiency

What ENERGY STAR® Certified means for you:

- Lower monthly energy bills
- More consistent temperatures throughout the home
- A quieter, more comfortable interior

You may not see these features. You'll feel them every day and appreciate them for years to come.

25% GREEN REBATE on Mortgage Insurance

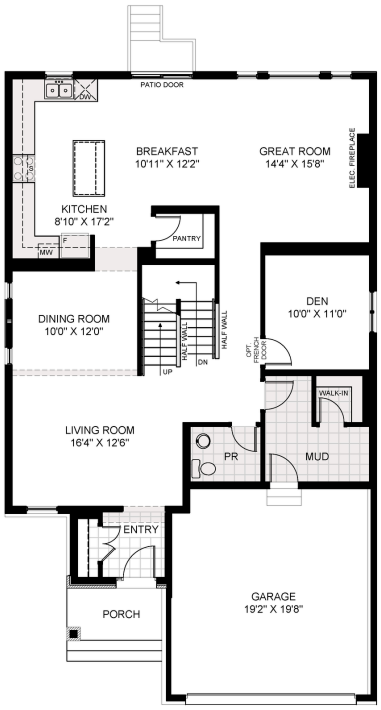

Because The Apex is ENERGY STAR® Certified, buyers may qualify for a 25% refund on their mortgage insurance premium. This is especially meaningful for first-time buyers or anyone purchasing with a 5% down payment, who must pay mortgage insurance. With 5% down payments, insurance premiums can add up quickly, and a 25% rebate can amount to thousands of dollars. Another practical way our Aspire Series delivers long-term value, right from the start.

Urbandale construction

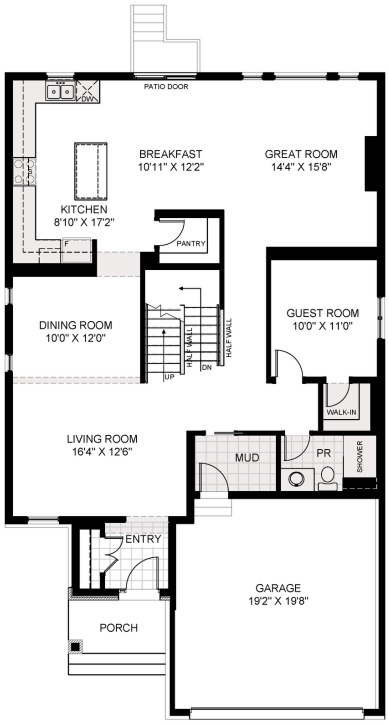

urbandale.com

Built by Urbandale. Aspire Series single-family homes are backed by Urbandale's long-standing reputation for building quality homes the right way. This means proven construction practices, attention to performance, and confidence that lasts long after move-in day.
